**A. FORD & CO.**

**SEEDSMEN**  
**JOHANNESBURG.**

NICOLL, PRINTER, GERMISTON.

"At the head of all sciences and arts, at the head of civilisation and progress stands—not militarism, the science that kills, not commerce, the art that accumulates wealth—but Agriculture, the mother of all industry and the maintainer of human life." —(President Garfield).

Date..... 19 .....

Postal Address: \_\_\_\_\_

Nearest Station.....

Imported Seeds cannot be sent by Agricultural Post.

If insufficient cash sent quantities reduced accordingly.

**NON-WARRANTY.**—We take the utmost care to supply Seeds, etc., true to name and character, of good germinating strength, and genuine in every way, but, owing to changeable climate influences, different modes of cultivation, and various causes over which we have no control, **WE GIVE NO WARRANTY** expressed or implied, as to description, quality, growth, productiveness or any other matter of any of the seeds, trees, plants and bulbs we send out, and will not in any way be responsible for results. If the purchaser does not accept the goods on these terms they are at once to be returned.

Quotations subject to Market fluctuations and goods  
being unsold on receipt of orders.

[illegible]

NOTE.—Another Order Form will be found at the back of this book.

As is customary in the sale of seeds, we give no warranty, expressed or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and any money paid to us will be refunded. Quotations are made and orders accepted on this distinct understanding.

# CANCELLING ALL PREVIOUS ISSUES.

## BUSINESS INFORMATION.

**WHEN TO ORDER.**—Kindly place your general order as early in the Season as possible, so that when conditions are favourable, your seed will be on hand.

**METHOD OF ORDERING.**—Name, Postal Address, Station and District, should be clearly set forth, and full forwarding instructions given, so that mistakes cannot arise.

**TERMS.**—Prices quoted are FREE ON RAILS, JOHANNESBURG, NETT CASH, or per S.A. Railways C.O.D. or Postal C.O.D. Cash should accompany all orders, unless arrangements have been made for the opening of a monthly account. **IF GOODS ARE TO BE SENT TO SIDINGS, PLEASE INCLUDE COST OF RAILAGE, AS SAME MUST BE PREPAID.**

When insufficient Cash is sent, quantities will be reduced accordingly. Any excess payments will be returned with invoice.

Amounts up to 2ls. kindly send by Postal Order.

Please add 6d. exchange to country cheques.

--------	------	------	------	------	------	---	---

Mr. A. J. Williams, of P.O. Settlers, writes us as follows:—  
 "Herewith please find cheque in settlement of enclosed account. The seed fully upholds Mr. Tidboald's statement that you are the most reliable Seedsmen in Johannesburg. I planted about 14 days ago, and have quite a 95 per cent. germination."

**FERTILISE FREELY.** or all your labours in the garden will be wasted. Plants must have Nitrogen, and the best form is Nitrate of Soda in conjunction with phosphates and potash.

NITRATE OF SODA, 2½ lb. Packets, 2/-.

(See page 18 for large quantities.)

## NITRATE OF SODA.

Nitrate of Soda is the best Nitrogenous fertiliser for:—

Tobacco Seed Beds.	Maize.	Bowling Greens.
Tobacco Plants.	Sugar Cane.	Golf Links.
Fruit Trees.	Grain Crops.	Cricket Pitches.
Flowers.	Vegetables.	Lawns, etc.

Prices on application. See current issue of the "Farmer's

Prices on application. See  
Weekly," under "Seed Potatoes."

**IMPORTED SEED POTATOES** available November and December.

Cases 75 lbs. and 100 lbs.

Standard Fertiliser for Potatoes, 20/- per 200 lbs. nett.

High Grade 17.1 Superphosphates, 14/- per 200 lbs. nett.

## PUMPKINS—PAMPOENE.

Tel. Address:

**"AFFORD"**

## Johannesburg.

## SOME REASONS FOR GROWING LITTLE PUMPKINS:

1. A cheap, easily-grown, Winter fodder for Cattle, Pigs and Horses.
2. Of good feeding value and high palatability.
3. A short Season Summer crop, only occupying the land for from four to five months.
4. Excellent as a fireproof cover for clearing or waste ground.
5. The Pumpkins can be stored and used as required during the Winter and Early Spring.
6. A change of Food, making good addition to Cabb. Hay, or Ensilage.

Mr. I. J. Meyer, 35, Bute Street, Leeds 1, writes on under date 30th April, 1929 as follows:— "It is with some pleasure I write to let you know that I was awarded the prize for 5th-best-tomato Plant Member and also for Tomato Crop, Foundation of the King Elizabeth Agricultural Society, growing from seed sown in 1928. For 1929 year, I may say that your seeds have given me great satisfaction both for quality and quantity."

## RENOVATION OF LAWNS.

Lawns which have been badly laid down at first, or neglected afterwards, may be improved by sowing 20 to 30 lbs. of Lawn Seed per acre. Before sowing, the surface of the soil must be well stirred with a strong iron rake, and afterwards top-dressed with fine soil, if possible. If the land is poor, a top-dressing of Bone Meal is desirable. After top-dressing, roll the lawn, sow the seeds, rake them over with a fine rake, and afterwards roll well both ways.

OUR LAWN GRASS SEED 3/- PER LB.

# SUNN HEMP

PLANT LEGUMES. ——— PLANT LEGUMES.

(Improve the Soil and the Animals.)

---

No Farming System is Complete without Legumes.

---

SUNN HEMP ——— A New Green Manuring Crop.  
(*Crotalaria juncea*).

---

It is a Leguminous fibre plant grown in certain parts as a green Manure Crop.

Farmers are rapidly awakening to the importance of growing some Legume or other. It is hardly necessary to define a Legume, but to those who are ignorant of its true definition, it might be described as a soil and animal improving crop.

A Legume, due to its capability of developing nodules containing nitrogen on its roots, improves the soil by adding that most important plant food to it. Several cases can be quoted where the inclusion of a Legume in a cropping system has resulted in a higher yield of crops following.

One of the main faults of cattle feeding in South Africa is the general scarcity of protein rich feeds. Such a deficiency could be supplied by growing a Legume. There is little doubt that in most farm practices highest profits are possible by feeding mainly home-grown feeds.

---

**SUNN HEMP** is a Splendid Legume for Green Manuring, easily turned under.

It is specially suited to the Warmer Districts.

It takes the place of Cowpeas.

It stands drought well.

It makes good ensilage.

It is ready to plough in 3 or 4 months after planting.

**Plant 20 lbs. per acre.**

**PRICES : Per lb., 9d.; 25 lbs., 13/-; 50 lbs., 25/-; 100 lbs., 48/-; 200 lbs., 82/6.**

WE STOCK ONLY THE BEST IN EVERYTHING.

# PLANTING AND SOWING TIME FOR FARM SEEDS.

The data given below must necessarily be regarded as approximate, especially in reference to times of planting, the periods specified merely indicating the latitude that can be taken subject to weather conditions or facilities for irrigation. Figures indicate rate of seeding per acre (two and one-ninth acre equal one morgen); b stands for broadcast, d for drills.

**Artichokes (Jerusalem).**—Same as Potatoes (d).

**Barley (Summer).**—All Provinces, November to December (80—100 lbs.).

**Barley (Winter, Irrigated).**—Transvaal, O.F.S., and Natal, May to June (70—80); Cape Midlands, February to May (60—70); Western Province, May (40—50, b.).

**Beans (Dwarf).**—All Provinces, February to March (50), drills two feet apart.

**Beans (Runner).**—All Provinces, October to November for seed; to December if for ploughing in (20—30, d.).

**Buckwheat.**—Cape Midlands, November to February; Transvaal, November to January; Natal, September to February; Western Province, September to January (30—50, b.).

**Chicory (Summer).**—All Provinces. November to December (4—5, d.).

**Chicory (Winter).**—All Provinces, February to April (3—4, d.).

**Cotton.**—All Provinces, October to November (5—7, d.).

**Cow-Peas.**—All Provinces, October to December, for seed; to January for ploughing in (30—50, b. or d.).

**Grasses.**—Kikuyu: All Provinces, during moist warm weather, cuttings set 3 ft. x 3 ft. apart. Paspalums: All Provinces, November to February (15—20, b.).

Sudan: All Provinces, October to January (20, b.).

Teff: All Provinces, October to February (6—10, b.).  
January to February will be found the best months for sowing most grasses.

**Kaffir Corn.**—All Provinces, September to middle of December (5—8; d.).

**Linseed.**—All Provinces, October to March (20—30, b.).

**Lucerne under Irrigation.**—Cape Midlands, September to October and January to April; other Provinces, February to April (15, d; 25, b.).

**Maize.**—Late (Natal White Horsetooth, Natal Yellow Horsetooth, Ladysmith White, Salisbury White, Hickory King, Louisiana Hickory, Eureka, Potchefstroom Pearl, German Yellow), September to middle of December.

Medium (Iowa Silver Mine, Chester County Mammoth, Reid's Yellow Dent or Palin's Corn Flake, White Congo, Yellow Congo); September to end December.

Early (North Dakota, Will's Gehu, Wiggie or King of the Earlies, Bread Mealies, Boesman): November to middle of January (8—20, d.), according to variety; for silage to end of January.

## PLANTING AND SOWING TIME FOR FARM SEEDS.Continued.

- Mangels.**—All Provinces, October to December (5—8, d.).
- Manna and Millet.**—All Provinces, October to December (12—20, b.).
- Melons.**—All Provinces, October to December (2—4).
- Oats (Summer).**—Cape Midlands, November to January; other Provinces, August to November (70—80, b.).
- Oats (Winter).**—Western Provinces, April to June; other parts, February to March (50—100, b.).
- Oats (under Irrigation).**—Cape Midlands, March to July; other Provinces, March to April.
- Onions (Main Crop).**—Transvaal, August to February; Western Province, March to June; Natal, April to May (4—6, d.).
- Peanuts (Monkey-nuts).**—All Provinces, October to middle of December (15 shelled; 40, unshelled, d.).
- Peas (Main Crop).**—Cape Midlands, May to July, other Provinces, February to April (60—100, d.).
- Potatoes (Early).**—Transvaal and O.F.S., August to September; Cape Midlands, August to January; Natal, June to August (6—10 bags, according to size, d.).
- Potatoes (Main Crop).**—Transvaal and O.F.S., December to January; Cape Midlands, September to November; Natal, September to December (6—10 bags, according to size, d.).
- Pumpkins.**—Cape Midlands, September to December; other Provinces, October to December (2—5).
- Rape (Winter).**—Transvaal, February to April; Cape Midlands, January to March; Natal, January to February; Western Province, March to May (2, d.; 8, b.).
- Rye (Winter).**—Cape Midlands, February to April; Western Province, May to June; Transvaal and other Provinces, February to April (50—60, b.).
- Sunflower.**—Western Province, September to December; other Provinces, October to December (7—10, d.).
- Sweet Potatoes (Cuttings).**—November to January (rows 3 feet apart, spaced 18 inches in rows).
- Tobacco.**—Western Province, June to July; other Provinces, July to August; in seed-beds (one sixth oz. to 20 square yards seed-bed). Transplanting: Western Province, September to October; other Provinces, October to November (one yard apart each way).
- Turnips (including Swedes).**—All Provinces, November to February (2—3, d.).
- Wheat.**—Western Province, April to May (30—35, b.); Cape Midlands, April to July; Transvaal, March to July (50—75, b.).

**NOTE.**—DURING THE SOWING SEASON, our current prices for SEED MEALIES, LEGUMES, GRASS SEED, MONKEY NUTS, SEED POTATOES, etc., will be found in all issues of the "FARMER'S WEEKLY."

## FORD'S VIRGINIA BUNCH SEED MONKEY NUTS.

: SHELLED READY FOR PLANTING. :  
SAMPLES and QUOTATIONS on APPLICATION.

---

ALL GOODS ARE OFFERED SUBJECT TO BEING  
UNSOLD ON RECEIPT OF ORDER.

---

We handle absolutely nothing that we do not believe to be the best obtainable. Our system enables us to quote the lowest prices at which selected seed can be sold.

---

ONLY CLEAN, NEW SEED IS HANDLED BY US.

---

The principal lines stocked by us are detailed under their respective headings in the preceding pages. We have made it our business to stock only those types which have by experience proved to be the most suitable for South Africa.

It is impossible to quote firm prices in all cases, owing to unsettled markets, but those mentioned in this catalogue are current quotations at time of going to press. We reserve the right to vary prices without notice, but can always send definite quotations by wire or letter on request.

---

When better Seeds are sold Ford's will sell them.
